

8th February, 2007

Today a meeting of donor organisations and representatives of healthcare authorities was held.

Participants of the meeting have agreed upon creation of a monitoring council, serving two purposes: (1) purposeful spending of funds received for sick children and (2) effective functioning of onco-haematological department of M. Iashvili Hospital.

As a main objective, young patients must be treated to contemporary medical standards free of charge.

Monitoring council includes representatives of Badri Patarkatsishvili Charity Foundation, donor organisations, Ministry of Healthcare, and Social Insurance Foundation.
