

30th January, 2007

A concert and a cheerful competition were held today in the school #200, within the framework of "We Are Friends" Project.

The main aim of Mr. Temur Pataskali's project is to create an environment where children with various disabilities would feel like full members of the society.

This project is carried out for a year already with funding of Badri Patarkatsishvili Charity Foundation and support of Tbilisi Municipality Children's Rights Protection Centre in schools where disabled children study.
