

First International Symposium in Georgia on Paediatric Oncology and Haematology

BADRI PATARKATSISHVILI FOUNDATION

Summary

On September 3rd and 4th 2006 the First International Symposium on Paediatric Haematology was held in Tbilisi, Georgia. This symposium was sponsored by Badri Patarkatsishvili Charity Foundation and organised in cooperation with M. Iashvili Children's Central Hospital.

The symposium was designed to share latest European research experience and advances in the field of paediatric haematology with Georgian specialists. It featured 8 formal presentations and excessive discussions on actual topics and was attended by more than 80 people of different backgrounds.

Organisers:

Badri Patarkatsishvili Charity Foundation
M. Iashvili Children's Central Hospital

A number of oral presentations have been made by the following authors:

Prof. Dr. Charlotte Niemeyer Freiburg, Germany	Current Challenges of Treatment of ALL MDS & AML: What is the correct diagnosis and how to treat this child
Prof. Dr. Karin Dieckmann Vienna, Austria	Radiation Therapy in Children with Cancer
Dr. Carlo Dufour, MD. Genoa, Italy	Congenital and Acquired Marrow Failure Syndromes
Dr. Judith Kingston London, UK	CML in Children Hodgkin's Lymphoma in Children
Prof. Dr. Stefan Bielack Stuttgart, Germany	Treatment of Children with Soft Tissue Sarcoma Improved Survival for Children with Osteosarcoma: Experience of the Cooperative Osteosarcoma Study Group

After the successful end, the decision has been made to hold the symposium annually. Additional information including presentations can be requested at:
